

**Our number one goal is a positive musical experience**

Whether a child decides to follow a musical road or becomes a doctor or scientist, our goal is to create a memorable, musical childhood experience. Group Piano and Group Guitar classes are designed to introduce each child to both the fundamentals of "Musical Theory" and provide the opportunity to apply what is learned in a fun environment using "Hands-on Keyboards or Guitars."

**Musical Theory** - Through different games and social interactions we introduce note values, rhythm patterns, musical terms, fun homework assignments, stories about famous composers and much more.

**Hands-on Keyboard or Guitar** - Each child has the opportunity to play his or her instrument during each class. The keyboards are provided by Do Re Mi School for use at each session, however guitars are brought to the class by students. (See *instrument information inside.*)

**Do Re Mi Group Classes** bring the joy of music, enthusiasm and positive energy which is vital in every child's development.

- Alexandra, music teacher

**My daughter Julia** was 3 when she started taking Do Re Mi Group Piano lessons. She is now six and still loves to practice. Her love for music truly has been developed.

- Stacey, Julia's mom

**My daughter Mina** attended the Do Re Mi group classes and we just loved the experience. The atmosphere was very warm and inviting to playful learning, and I loved the games they played. Enrolling my child in that class was the best decision I ever made.

- Marina, Mina's mom
